Stuart Townend: Live CD and DVD

From one of the world's most talented worship songwriters comes a live DVD and CD that perfectly illustrates why the artist is held in such high regard. 'There Is A Hope' not only displays the depth of skill that goes into Stuart Townend's song writing, but it also shows just what an engaging and perceptive a worship leader he is.

'There Is A Hope' was recorded live in Ireland, and features the talents of guest worship leaders Aaron Keyes and Kelly Minter from the USA. Featuring all of Stuart's best loved songs, the full length DVD and CD capture the essence of an incredible night of worship.

Stuart Townend has long been known as one of the leading writers of modern hymns, and with a back catalogue that contains the likes of 'How Deep The Father's Love', 'In Christ Alone' and 'The Power of the Cross' it is easy to see how Stuart's poetic lyrics and stirring melodies have impacted millions.

Originally available as two separate products – CD and DVD only – this special reissue reunited the sight and the sound in a great looking digipack.
